The strongest seams you'll NEVER see!

STANDARD ON ALL LATHAM LINERS

Standard pool liners present visible lines on the pool floor at the seams which ultimately detract from the beauty of the pool. Latham's innovative **ULTRA SEAM** technology elevates our liners to an entirely new category.

This exclusive process makes floor seams stronger and virtually invisible, so there's nothing that gets in the way of the picture perfect beauty of your pool!

Now standard on every Latham Liner.

For more information, ask your dealer about **ULTRA SEAM**!

Here's what your neighbors are saying about their new Ultra-Seam® liner.

"We've been pool owners for over twenty years and we were amazed that we couldn't see the seams! Our grandchildren came over and actually thought we got a brand new pool. Even after walking out to the pool all summer I still can't get over the fact of how perfect the liner fits and flawless it looks. Why would anyone want to go back to the old way, it makes no sense."

Gail Guertin, Pool Owner

"I've had a pool over 12 years. I've had other liners and you could always see the seams, especially when there was dirt in the pool. I'm so thrilled with the Ultra-Seam® liner. We've had multiple people remark how awesome it looks. You can't see the seams at all, even when there's dirt in the pool. In fact, you don't see the dirt at all. It looks fantastic, especially at night when you put the lights on. I'm impressed!"

Tim Moseman, Pool Owner

"Oh my gosh you can't even see the lines, how did they do that? It's amazing the difference. Our old liner had so many lines across the floor and now they are virtually invisible."

Nan and Dick, Pool Owners
