# THE NEW SEBO AIRBELT E: YOUR FLOORS ARE ALREADY LOOKING FORWARD TO IT.

The SEBO AIRBELT E brings a new dynamic to vacuuming: The patented Airbelt is of a very light, but high-impact material and can absorb shocks well - even if the vacuuming must get done in a rush, your furniture and the vacuum are equally protected. Many other features facilitate the work. Strong suction, slim shape, high energy efficiency and low noise make the SEBO AIRBELT E a pleasant cleaning companion in your everyday life.

## SEBO. MADE IN GERMANY. YOUR FLOOR CARE SPECIALIST.

The first SEBO vacuum cleaner was developed in 1978 for the high demands of cleaning professionals: innovative, thorough, ergonomic and economical. In a short time, SEBO Stein & Co. in Velbert, Germany, became the global leader for high-quality commercial upright vacuum cleaners. SEBO stands for technical innovation and intelligent detail solutions. Many of SEBO's design ideas have become a benchmark for world-class vacuum cleaners. For example, the patented Airbelt shock protection and integrated powerhose were designed and patented by SEBO.

SEBO vacuum cleaners are, in every respect, optimal tools for cleaning and maintenance of carpets and hard floors. They are technically sophisticated, well engineered, easy to use and exceptionally functional. These high quality products are developed and produced exclusively in Velbert, Germany. To date, more than four million SEBO vacuum cleaners have been sold worldwide, proving their reputation for excellent performance.

Today SEBO vacuums are used everywhere, from the red carpet to the gleaming parquet floors in your own home. They can be found in the White House in Washington, Buckingham Palace in London, German Parliament in Berlin and in leading hotels around the world, from Tokyo, Cape Town and Paris to Las Vegas and Singapore.

# THE FEATURES OF THE SEBO AIRBELT E. VACUUMING WITH GOOD IDEAS.

## Patented Airbelt Bumper. Safe Impact Protection.

- › The soft foam bumper, with its durable cover, absorbs bumps to the canister body, thereby protecting furniture, walls and the vacuum itself from collecting scratches and scuffs during use – the airbelt bumper also diffuses exhaust air, which contributes to its ultra-quiet performance.

## SEBO's Proven Quality Filtration.

- › All models are equipped with S-class, hospital-grade filtration, meeting the needs of those who suffer from Allergies and Asthma.

## Three Full-Size On-Board Tools.

- › For special cleaning tasks, the vacuum comes standard with a crevice tool, dusting brush and upholstery nozzle.
- › The dusting brush is mounted on the telescopic tube, and the crevice and upholstery nozzle are integrated into the canister body for storage space efficiency.
- › The tools are on-board, easily removed and always ready for use.

## Three Castors with Rubber-Coated Wheels. Floor-Friendly Maneuverability.

- › Three rubber-coated castor-wheels, mounted on bearings and steel axles, help the SEBO Airbelt E glide easily, quietly and gently over all floor types, providing exceptional maneuverability and protection of floor surfaces.

## Optional Accessories

**Extension Hose (6340)**  
Up to a 6 meter increase in range; ideal for cleaning stairs.

**Extension Wand (490 mm) (6218 dg/gS)**  
To extend your cleaning radius, like when reaching high ceilings.

**Special Upholstery Nozzle (SEB-1090 dg/gS)**  
Useful when cleaning upholstered furniture with flat fabrics, or car interiors, especially car seats.

\* Depending on the model.  
\*\* The pictured SEBO dusting brush is an optional accessory.

### 3.5 Litre Filter Bag Capacity.

- › With normal household use, the filter bag rarely needs to be changed – saving money, time and effort.
- › The display indicates when the filter bag should be changed.
- › The hygiene cover prevents dust from escaping during removal.

### Suction Power Control. Controlled Suction.

- › The variable power control button is conveniently located on the handle of the E3 and ranges from minimum to maximum suction power. It is located on the canister for the E1 and E2.
- › Rugs, upholstery and curtains can be easily and gently cleaned using different levels of suction.

### Standard Overheating Protection.

- › The thermal cut-out feature ensures that the SEBO AIRBELT E will turn off automatically if it overheats.
- › The lighting of the power button changes from blue to red when the machine is overheating.

### Park and Stow.

- › After the work is done, the suction hose with telescopic tube and the hard floor nozzle can be firmly stored on the canister's underside or rear housing.

### 10.8 Meter Cleaning Radius.

#### Extra long, 25 Foot Power Cord.

- › With an operating radius of 10.8 meters (37 feet), there is virtually nothing that is out of reach for the SEBO AIRBELT E.
- › One-touch cable rewind retracts the power cord automatically at the push of a button.

### Connection for Power Head or Floor Polisher. Ideal Care for Carpets and Hard Floors.

- › The SEBO AIRBELT E3 has an integrated power cord in the hose for connecting a power head or UHS polisher.
- › In no time, the SEBO AIRBELT E3 can switch from a hard floor to carpet specialist.

#### Wall and Upholstery (6220)

For rough hard surfaces, and for a quick dusting of textile wallpaper, curtains, and upholstery.

#### Upholstery Turbo Nozzle SEBO PT-C (6343)

Driven by suction for cleaning of heavy-duty upholstery, mattresses, etc. Even stubborn fluff and pet hair is removed.

#### Dusting Brush (with Clip for Telescopic Tube)\*\*

Carefully cleans delicate and contoured objects with its long, soft natural bristles. Useful for cleaning objects like books, furniture, etc.

#### SEBO DUO-P Clean-Box (8198)

Includes the dry-cleaning powder and an integrated hand brush. Ideal for quick and easy stain removal on carpet or upholstery.

#### SEBO FRESH Air Freshener (SEB-0496)

For a pleasant and fresh scent while vacuuming.

# POWER HEADS, FLOOR TOOLS AND FLOOR POLISHERS. THE PERFECT TOOL FOR EVERY FLOOR.

An electric power head and a floor nozzle – Subtle differences, big impact. The SEBO AIRBELT E is prepared for every situation. Whether carpet, parquet or other hard floors, a suction attachment can be connected to the handle or wand of the various Airbelt E models. Choose according to the needs of your carpet or hard floors.

**SEBO KOMBİ\*** – Easy maneuvering guaranteed.

The new combination nozzle has been specially developed for professional use.

Whether carpet or hard floor - With the slide of a button, you can raise or lower the bristles for the appropriate surface. The rotating swivel neck and four rolling rubber-coated casters provide tremendous flexibility while significantly reducing friction.

**SEBO PARQUET\*** – Safe on any smooth parquet floor.

This floor nozzle has been specially designed for parquet floors. It cleans delicate, smooth, hard floors gently but thoroughly. It even picks up fine dust. Straight and sickle-shaped natural bristle strips direct the flow of suction. It can also clean on uneven ground and adjust optimally to different floor textures.

**SEBO ET\*** – Deep cleaning, even in pet hair.

The ET power head is ideal for deep and gentle cleaning of carpets. It takes on even stubborn pet hair and lint. Using the 4-level manual height adjustment, the SEBO ET can be adjusted easily to different carpet piles. If the brush is blocked, the unit automatically switches itself off. By pressing a button, the roller brush can be easily removed, cleaned or replaced. The soft bumper protects the machine and your walls from bumps and scrapes. For delicate floors, the brush motor can be turned off with the push of a button\*.

**SEBO DISCO\*** – Floor shine specialist.

For daily cleaning and polishing of hard floors, the innovative Ultra-High-Speed (UHS) floor polisher is the best choice. It helps your floors retain their original splendour and value.

\* Depending on the Model.
